Installation of ATM to existing retail shopfront

The Committee reviewed the proposed site plan and raised concerns regarding the safety of the suggested ATM location. The design and access statement indicates that the ATM would be positioned next to the store's exit. However, the Committee noted that this particular exit has been disused for several years. As a result, the ATM would instead be situated in an isolated part of the shopping centre.

Members also highlighted the close proximity of dense vegetation, which could obscure visibility and potentially provide cover for individuals with malicious intent, particularly during later hours.

	The Committee agreed that the proposed location presents significant safety risks for users withdrawing money. Chineham Parish Council objects to the application on the grounds of safety concerns relating to the ATM's proposed location.
